478.			<p>The following documents (DTX 700-902) relate to the expert opinions of Mr. Napper and Mr. Britven regarding alleged damages. Because Witness Systems only expects to introduce a small number of these documents into evidence, and in an effort to reduce the size of the parties' respective exhibit lists, Witness Systems made the following proposal to NICE. Both parties would simply list two entries on their exhibit lists: "Documents relied upon or considered by Mr. Napper," & "Documents relied upon or considered by Mr. Britven." NICE rejected that proposal. As a result, Witness Systems separately includes the following, reduced list of documents that may be used or introduced into evidence in connection with the testimony of Mr. Napper and/or Mr. Britven.</p>			<p>NICE understands that Witness intends to use DTX 479-681 during the examinations of Messrs. Napper and Britven. NICE objects to Exh. 478 to the extent it is used in manner other than that agreed to by the parties and the Court during the Pre-Trial Conference on January 9, 2008.</p>
